With STOCKMAR, kids can experience and create their own world through the artistic process. This artistic process in turn helps improve children's mental agility and artistic abilities by promoting creative interplay between their powers of imagination and senses.

The inner calm that artistic activity brings provides a good contrast to often one-sided performance-driven expectations and helps achieve balance in a child's development.

Hans Stockmar GmbH & Co. KG • Borsigstr. 7 • 24568 Kaltenkirchen Germany • www.stockmar.de

STOCKMAR product range

For decades, the name STOCKMAR has stood for the highest caliber of art supplies. We take a comprehensive, smart approach to quality: through the careful selection of raw materials, first-class processing and our products' excellent color, paint and modeling properties. We believe that quality includes the aspiration to create artistic freedoms which have a positive impact on individual development. This allows us to create exceptional products which support a rich, artistic experience—be it at home, at kindergarten or school, or in a therapeutic environment.

STOCKMAR DECORATING WAX

STOCKMAR decorating wax

Decoration and designing

Decorating candles and other objects has a long tradition. It is great fun at parties and other occasions to use fine decorating wax for colorful decoration and design. Creativity has no limit because the sheets stick well to a wide variety of surfaces such as wood, glass, acrylic, cardboard and metal.

Brightness and translucence

STOCKMAR decorating wax has high-quality, nonfade color pigments, and its special quality shows up against a light background. Their translucency makes the colors look especially bold. This excellent property is ideal for producing window pictures or lanterns.

18 colors

- in ranges of 12 or 18 colors
- in two different foil sizes
- $\cdot \,$ available as individual colors

Giving color shape

The 1 mm thin STOCKMAR decorating wax in 18 beautiful colors can be cut, stamped, torn, pulled or gently warmed and shaped using the hands. They can be used to decorate candles, tins, picture frames, and boxes, be shaped into small figures, or used to add fine embellishments to pictures. The sheets can always be used together with modeling beeswax—to easily create vivid art works.
